SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

SUMMARY OF CHANGES

Question/Comment: Please find attached a spreadsheet that compares all the labor rates for subject solicitation W912DR-05-R-0002. This information was compiled by the Most Efficient Organization (MEO) team and is being provided to you for your use. All Davis Bacon Act (DBA) and Service Contract Act (SCA) rates were taken from the solicitation. The DBA rates also show when the last survey was conducted. We request the information be corrected, so that all rates are current with Government rates.

Answer: The Davis Bacon Wage Decision included in the solicitation contains the most current rates issued by Department of Labor (DOL). These rates represent the minimum amount a private sector offeror can pay workers in the respective labor categories. Other factors such as scarcity of labor in a particular trade may affect the hourly wages used by offerors in calculating their cost proposals. During the evaluation of proposals, the Government intends to conduct a cost realism and price reasonableness analysis on cost proposals to determine, among other things, what the Government should realistically expect to pay for the proposed effort. The Government will consider factors such as scarcity of labor in a particular trade in performing the analysis. Also, in the event an option is exercised, the wage determination decision effective at that time will apply to that option period. This is no different from the Government paying higher rates at a later date due to Office of Personnel Management (OPM) implemented increases in salaries of federal employees.
